Subject: Composite Draft Oil and Gas transition pager OAQPS/OAP/OGC. for your review
Oil and Gas Transition Pager Composite OAQPS-OAP-OGC Edits 9-30.docx

Mike and Jackie,

Attached is the composite piece after adding Mike's replacement language and fixing a few other things that were either weird or in the wrong place. Jackie agreed to run through it at this point and help get it just a teeny bit shorter (it looks like one line and a heading run over into a third page). Hard stop at 2 pages...

Once you both check it out, I'll take Jackie's version and send a clean version to Paula and copy appropriately according to the incoming yesterday.

I took a quick look and have a number of suggested edits, which I've tried to explain in comment bubbles. I think these may be after your deadline-my edits aren't critical but may be helpful.

Excellent. Thanks!

Amy B, do you just want to add your bullets directly to the file? If so, just use what Mark sent and add there. I will make no further edits for now if you do. . .
